

Jon Sterckx - Copy

Title: Jon Sterckx - Drumscales Live Sampling

Copy:

Combining acoustic percussion, vocal percussion & live audio processing, Drumscales range from highly energised rhythmical journeys to atmospheric percussion soundscapes. All instruments are played, sampled and processed live on stage.

Tabla, Riq, Daf, Cajon & vocal percussion contribute to original and unique rhythmic journeys which draw from traditional Indian & Middle Eastern rhythms infused with a contemporary and innovative delivery. Using real time audio processing to create effects such as drones from percussion, new sounds evolve from the mix as the acoustic becomes the electronic.
